	Sub-sector	Passive Infrastructure	Last reviewed on	21/06/2018
	Occupation	Operations & Maintenance	Next review date	31/03/2019
	NSQC Clearance on	20/07/2015		

Job Role	Tower Technician
Role Description	Keep sites live 24x7 through site maintenance
NSQF level	4
Minimum Educational Qualifications*	10+2 and/or ITI Diploma in Electrical/Mechanical
Maximum Educational Qualifications*	Graduate
Training (Suggested but not mandatory)	NA
Minimum Job Entry Age	18 Year
Experience	0-3 years of experience is desired
Applicable National Occupational Standards (NOS)	Compulsory: 1. TEL/N4100 (Site hygiene) 2. TEL/N4101 (Preventive Maintenance at tower site) 3. TEL/N4102 (Site Management) 4. TEL/N4103 (Task reporting) 5. TEL/N4104 (Corrective maintenance)
Performance Criteria	As described in the relevant OS units

Definitions

Keywords /Terms	Description
Core Skills/Generic Skills	Core Skills or Generic Skills are a group of skills that are key to learning and working in today's world. These skills are typically needed in any work environment. In the context of the OS , these include communication related skills that are applicable to most job roles
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for
Function	Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organization
Knowledge and Understanding	Knowledge and Understanding statements which together specify the technical , generic, professional and organizational specific knowledge that an individual needs in order to perform to the required standards
National Occupational Standards	NOS are Occupational Standards which apply uniquely in the Indian context
Occupation	Occupation is a set of job roles under which role-holders perform similar/related set of functions in an industry
Organizational Context	Organizational Context includes the way the organization is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility
OS (Occupational Standards)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts
Performance Criteria	Performance criteria are statements that together specify the standards of performance required when carrying out a task
QP (Qualification Pack)	Qualifications Pack comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A Qualifications Pack is assigned a unique qualification pack code.
Qualification Pack Code	Qualifications Pack Code is a unique reference code that identifies a qualifications pack
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with, in carrying out the function which has a critical impact on the quality of performance required
Sector	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components
Technical Knowledge	Technical Knowledge is the specific knowledge needed to accomplish specific designated responsibilities
Telecom	Is a communication sector consisting of companies who provide

	telephonic communication facilities to the public
Unit Code	Unit Code is a unique identifiers for an 'OS' unit, which can be denoted with either an 'o' or an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do

Acronyms

Keywords /Terms	Description
CI	Cluster Incharge
CIT	Customer Interface Tool
IM	Infra Manager
MTD	Month Till Date
NOC	Network Operations Centre
OPCO	Mobile Operator
PIU	Power Interface Unit
PM	Preventive Maintenance
R&M	Repair and Maintenance
SLA	Service Level Agreement
SLA	Service Level Agreement
TAT	Turn Around Time
TOC	Telecom Operation Control
ZOM	Zonal Operation Manager

TEL/N4100

Site hygiene

National Occupational Standard

Overview

This unit is about maintenance of tower site by maintaining site hygiene, at regular intervals.

TEL/N4100

Site hygiene

National Occupational Standard

Unit Code	TEL/N4100
Unit Title (Task)	Site hygiene
Description	This OS unit is about maintaining the site hygiene
Scope	This unit/task covers the following: Key stakeholders: tower technician Maintain site hygiene
Performance Criteria(PC) w.r.t. the Scope:	
Element	Performance Criteria
	To be competent, the user/individual on the job must be able to: PC1. maintain site hygiene of AC, DG, PIU, SMPS and battery bank, as per organization's norms PC2. check leakage, rattles and shakes at the tower site PC3. check if installation of fire safety instruments is in place PC4. control fire accident incidents PC5. check the site as per electrical safety norms PC6. check proper floor markings, shadow board display and labels PC7. check diesel consumption and highlight excessive consumption to supervisor PC8. conduct work area audit as per company checklists PC9. maintain checklist of standards laid by the company
Knowledge and Understanding	
A. Organizational Context (Knowledge of the company / organization & its process relevant to area of responsibilities)	The user/individual on the job needs to know and understand: KA1. checklists for preventive maintenance and site hygiene KA2. asset layout as per company standards
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. basic use of mechanical equipments KB2. basic layout of the tower site KB3. general aspects of electrical wiring KB4. safety requirements at the tower site

TEL/N4100

Site hygiene

	KB5. how to use fire extinguisher at the time of emergency KB6. how to calculate energy cost and site up-time KB7. site standards as per company policies
Skills (S)	
A. Core Skills/ Generic Skills	Comprehension Skills
	The user/ individual on the job needs to know and understand how to: SA1. comprehend formats and checklists for PM (preventive maintenance) and site hygiene
B. Professional Skills	Planning and Execution
	The user/individual on the job needs to know and understand how to: SB1. prioritize daily activities for the up-keep of tower site
	Relationship Building
	The user/individual on the job needs to know and understand how to: SB2. maintain healthy relationship with the landlord

TEL/N4101

Preventive maintenance at tower site

National Occupational Standard

Overview

This unit is about conducting regular preventive maintenance activities at the tower site.

TEL/N4101

Preventive maintenance at tower site

National Occupational Standard

Unit Code	TEL/N4101
Unit Title (Task)	Preventive Maintenance
Description	This OS unit is about performing regular preventive maintenance activities
Scope	This unit/task covers the following: Key stakeholders: - tower technician - cluster in-charge/supervisor Ensure preventive maintenance activities at the tower site
Performance Criteria(PC) w.r.t. the Scope:	
Element	Performance Criteria
	To be competent, the user/individual on the job must be able to: PC1. adhere to PM (preventive maintenance) plan PC2. comply with Beat plan execution, for self PC3. conduct site PM (preventive maintenance) PC4. keep a check on site up-time PC5. perform unique site down PM (preventive maintenance) PC6. perform health check on site like checking engine oil, voltage etc. PC7. check premature ageing of Battery Bank, Diesel Generator, Air Conditioner, PIU and SMPS PC8. monitor outages due to Diesel Generator PC9. close maximum number of complaints registered PC10. provide timely resolutions to trouble tickets raised PC11. comply with preventive maintenance schedule
Knowledge and Understanding	
A. Organizational Context (Knowledge of the company / organization & its process relevant to area of responsibilities)	The user/individual on the job needs to know and understand: KA1. PM (preventive maintenance) norms as per the company KA2. site up-time targets of the company, to avoid penalties KA3. repair and maintenance guidelines of the company

TEL/N4101

Preventive maintenance at tower site

B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. troubleshooting of AC, DG, PIU, SMPS, battery bank and shelter KB2. the basic use and care of tools and mechanical equipment KB3. safety hazards and perform duties in a safe manner
Skills (S)	
A. Core Skills/ Generic Skills	Reading Skills The user/ individual on the job needs to know and understand how to: SA1. read and comprehend company policies and guidelines to conduct timely preventive maintenance activities SA2. comprehend formats and checklists to verify PM (preventive maintenance)
B. Professional Skills	Analytical Skills The user/individual on the job needs to know and understand how to: SB1. diagnose reasons of down-time through up-time analysis SB2. perform fault analysis to identify and repair recurring faults on site Planning and Execution The user/individual on the job needs to know and understand how to: SB1. prioritize to conduct preventive maintenance activities effectively

TEL/Q4100

Qualifications Pack for Tower Technician

Criteria for Assessment of Trainee					
Job Role		: Tower Technician			
Qualification Pack		: TEL/Q4100			
Sector Skill Council		: Telecom			
Guidelines for Assessment					
1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.					
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.					
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.					
4a. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).					
4b. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on this criterion.					
5. To pass the Qualification Pack , every trainee should score a minimum of 70% of aggregate marks to successfully clear the assessment.					
6. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.					
Assessable Outcomes	Assessment Criteria	Total Mark (500)	Out Of	Theory	Skills Practical
TEL/N4100 Site hygiene	PC1. maintain site hygiene of AC, DG, PIU, SMPS and battery bank, as per organization’s norms	100	10	10	0
